Portfolio Website: https://anirban-portfolio.web.app/

For the last few months, I am enjoying working in the web development sector very much. So I have decided to develop myself in this sector as an efficient & qualified one.

Skills:

Comfortable: HTML, CSS, JavaScript, Bootstrap, React JS.

Familiar: node.js, express.js, mongoDB, Firebase.

Job experience: My current and past job experience do not match with web development but I really hard trying to work in this sector.

Projects:

Name: Awesome Furniture, **Purpose:** It is a furniture selling website.

- Order buttons of products part in home page & explore page & dashboard navbar(top of the home page) are private/restricted, if one user logged in then he/she can visit.
- In the dashboard uses nested routing, where manage products, manage orders, make admin, add product options can see only who is an admin. admin@admin.com & password 123456.
- **Uses: Client side-**React app, react bootstrap, firebase for authentication, react hook form, react router dom, font awesome. **Server side**- express, mongodb, node.js.

Live Website: https://awesome-furniture.web.app/
